

# CAMDEN & ISLINGTON SUSTAINABILITY AWARDS

Celebrating cross-borough leadership in best green practice

**21 November 2019**  
Jerwood Hall, LSO St. Luke's

# ABOUT

Camden Climate Change Alliance (CCCA) and Islington Sustainable Energy Partnership (ISEP) are coming together to celebrate the achievements of businesses, community organisations and schools, who are leading the way in the delivery of sustainable services and products.

The Camden and Islington Sustainability Awards are an opportunity to cultivate cross-borough collaboration and knowledge exchange at a time when boroughs are moving towards new zero-carbon targets to tackle the climate crisis.

For over 10 years, CCCA and ISEP, London's unique pioneering sustainability networks, have been working with businesses and other organisations to identify and deliver projects that reduce energy costs, cut carbon emissions and manage environmental impacts.

The Camden and Islington Sustainability Awards are open to all organisations across both boroughs.

## CCCA

Camden Climate Change Alliance is a membership network founded by the London Borough of Camden. The Alliance's mission is to support members to contribute towards a low-emission and low-waste Camden, which improves local air quality, mitigates climate change and closes the loop on waste.

## ISEP

Islington Sustainable Energy Partnership is a local network of organisations working towards a zero-carbon Islington. The partnership works with its members to improve their energy efficiency and reduce their environmental impact through direct advice, networking and resource sharing amongst energy and sustainability professionals, as well as helping members get involved in local community projects.

# SPONSORS

**Workspace** have a network of over 60 business locations across London (including Islington and Camden) offering a range of space to suit all businesses: from inspiring office and studio space to well-connected light industrial units and spacious workshops – all on flexible lease terms. They are committed to reducing our environmental impact and aim to ensure their properties create healthy and productive communities.

**BEE Midtown** leads economic development and profile building in Midtown for businesses, by being their collective voice and offering a range of services and solutions for hyper-local inner city issues, because long term sustainable, commercial and social growth create competitive advantage for all. Consisting of Bloomsbury, Holborn, St Giles, Farringdon and Clerkenwell – EC1 and WC1 – London's best connected postcodes

Established in 1993, **GLL** is the largest UK-based charitable social enterprise delivering leisure, health and community services. Operating under the Better brand, they manage over 270 public sport and leisure centres, 113 libraries and 10 childrens centres in partnership with 50 local councils, public agencies and sporting organisations. They also operate in sport and legacy development, health intervention and education – as well as running the GLL Community Foundation focussed on supporting local projects

**Alara** is a producer of delicious, sustainable and organic foods. Their packaging is plastic free and home compostable and it is believed that their food manufacturing site is the first such site in the UK to become carbon-neutral with zero waste.

**Veolia** is the UK leader in environmental solutions. Delivering Camden's waste and recycling services, Veolia are committed to management solutions for the circular economy and innovating for the future.

**Lendlease** is an international property and infrastructure group with core expertise in shaping cities and creating strong and connected communities. They create places that leave a positive legacy with a focus on safety, innovation and sustainability.

**The Fitzrovia Partnership** is a Business Improvement District, a geographical area which the local businesses have voted to invest collectively in improving their environment. They work with community groups, residents and the local authorities to deliver the key themes such as reducing business costs, supporting the business community, marketing, sustainability and security.

# CATEGORIES

## + Business

### **Energy efficiency and carbon reduction**

Recognises excellence in managing and reducing carbon emissions and energy consumption

### **Improving air quality**

Recognises initiatives that reduce air pollutants including PM10 and NO2

### **Resource management and recycling**

Recognises excellence in projects aimed at reducing the environmental impacts of materials including waste and water use management

### **Employee engagement**

Recognises projects aimed at engaging employees in sustainability issues

### **Leadership in green procurement**

Recognises the use of procurement to support the growth and promotion of a low carbon economy

### **Sustainability champion**

Recognises the contribution individuals have made in the implementation and embedding of sustainability practices in an organisation or community

## + Community Projects/Initiatives

### **Best community environmental project**

Recognises the efforts of community groups working to improve their local environment

## + Schools

### **Best sustainable school initiative**

Recognises schools that have reduced the impact of their operations, raised sustainability awareness and engaged with the wider school community
